- This workshop will provide educational leaders with a conceptual framework and tools to design, refine, and measure an organizational strategy for instructional improvement.
- Participants will receive feedback from their peers and support from the facilitators.
- There will be time for participants to work individually and in small groups.
- The workshop will conclude with an opportunity to “pressure test” your thinking.

If you do NOT have a district-wide vision for high-quality instruction then you should come on the morning of day one; if you DO have a vision for high-quality instruction then you may choose to join the workshop at noon on day one.
